RE: Customer Reference

I would like to take this opportunity to commend Britco Structures for being a first class business operation. Britco has been a supplier of Boxx Modular's for the last 18 months, building our modular office fleet primarily out of their Penticton manufacturing plant. Every single person that we have dealt with in Britco's operation has been pleasant to deal with. Whether it is their sales department, upper management, or their plant personnel, Boxx Modular has always been treated as a first class client. Due to their efforts I would argue that Boxx Modular and Britco's relationship has gone beyond simple business transactions.

Britco has built a very strong product for Boxx Modular, with very few deficiencies to cause any concern. When Boxx Modular does run into the odd problem with our office fleet, Britco is quick to act and get the matter resolved in a timely manner. Being in this industry for many years, I have known there to be a tendency for manufacturers to over promise and under deliver when it comes to delivery dates. With Britco, we find that we can always count on them to meet the dates that they promised at the time of order.

Finally, Mike Ridley and his staff know how to treat their clients. He understands that there is a time and place for business transactions to be held, and that other times call for relaxing meetings just to get to know the client a little better. We would strongly recommend Britco Structures to anyone requiring modular buildings.

Sincerely,

Troy Cleland
VP & Division Manager
Boxx Modular
